WARREN'S
COUGH BALSAM
Has been found, by experience, to be the Best Remedy for the various Diseases of the Lungs and Throat, such as
Diphtheria,
Asthma, Bronchitis, Consumption, Croup, Pleurisy, Pneumonia or Inflammation of the Lungs, and Whooping Cough.
IN these complaints this Medicine has NO SUPERIOR, and while thus efficacious, it is perfectly SAFE to administer to persons of all ages.
At all times of the year this balsam is found useful, especially in the Autumn, Winter and Spring, and many Colds and Coughs, which, if neglected, might prove fatal, may be CURED at once by a few doses of this invaluable remedy.
This Cough Balsam possesses the two fold advantage of being at once a valuable palliative and a preventive of all the diseases of the Throat, Lungs and Bronchia.
In DIPHTHERIA this Balsam has proved itself unexpectedly efficacious. When given at the first onset of the Pestilence, it checks it at once; and in many cases, is believed by those who have used it, to have saved their lives.
In ASTHMA, however violent and distressing, this Balsam gives prompt relief.
In BRONCHITIS and PNEUMONIA it relieves the irritation loosens the Cough, and promotes a favorable expectoration.
In CROUP its powers are almost magical. This insidious disease, coming literally "like a thief in the night," may be speedily and effectually arrested by a few timely doses of this Balsam.
In WHOOPING COUGH it moderates the paroxysms, prevents the disease from assuming its severest and dangerous form, and shortens its course.
Every family should keep it in the house, and thus avoid the dangerous delay attendant by sending out for the medicine when needed by the old adage.
The first recommendation of a good medicine is found in its use. The following certificate, from one who has used it, does not give a test confidence in it, try one bottle for yourself and you will be convinced. It will cost you but twenty five cents, and may save you as many dollars in time and doctors' bills.
Letter from Col. Roberts.
BROWN WARREN—Allow me to thank you for the bountiful supply of Cough Balsam received by me from you, through Lieut. Reynolds. Many a soldier in my command, as well as officer, has experienced the beneficial effects of the same. We all pronounce the article sound—no disease, delicately expressed. Dr. Lyman, of Boston, to whom I presented a bottle.

Startling Disclosures.

The London News publishes an interesting and important letter, addressed to Lord Palmerston by "Anonymous" and dated at New Inn, W. C., Feb 11. The writer says

Does anybody outside of a lunatic asylum believe that the *Emperor of China* is in immediate want of a fleet of war steamers? Will the noble Lord, the Secretary of Foreign Affairs, hazard an opinion upon this point? Will the honorable member from Birkenhead afford the public the benefit of his experience? Who should know if he does not? If report speaks truth, his Celestial Majesty is a profitable customer of his. On the premises belonging to the Messrs. Laird, at Birkenhead, in a covered shed or 'annexed' to the main yard, two powerful war steamers are in course of construction '*for the Emperor of China*.' Their burden is about 2,200 tons. They are of the ram class, are partially plated, and measure, my 200 feet long by 36 feet beam, and 18 feet deep. Their engines, now nearly ready, are ranked nominally at 600 horse power, but each will work up to a thousand, and will give them a very high rate of speed.

In the main yard of the same premises another steam ram is being built, also 'for the Emperor of China.' Her length is about 150 feet, by 28 feet beam, and depth from 16 to 18 feet. She is partially iron plated, like the two others in the annex, and the three are expected to be ready for sea in two months from the present time, perhaps sooner. Capt. Bullock, who commanded the '290,' is daily in attendance superintending their progress. Does this gentleman hold his commission *from his Celestial Majesty, or from Jeff. Davis.*

In the yard of Messrs. W. C. Miller & Son, Liverpool, there is nearly completed a wooden, screw propelled vessel, of about 150 or 500 tons. She has been constructed upon the plan of the American coasters, being nearly flat bottomed. She is built for fast sailing under canvas, and under steam is expected to run 15 knots an hour. She is to be armed with 9-pounder guns, and is expected to be ready for sea in the course of four weeks. It is commonly reported that she belongs to the Confederates.

Messrs. Lawrence & Son's yard is the highest up the Mersey. A large screw steamer is being built there *for the Emperor of China.*

Messrs. Fraser, Trenholm & Co., of Liverpool, the 'depot firm,' as it is so styled, of the Confederate government, have contracted for a large vessel of 3,000 tons, which is to be built at Stockton.

Messrs. Thompson Brothers are building, on the Clyde, a powerful, armor-clad steam ram, '*for the Emperor of China*,' to be ready for sea on the 9th of April next. She is about 250 feet long, by 45 feet beam, and 30 feet in depth—her armor-plates are from 4½ to 5 inches thick. Her engines will be of 600 horse-power each.

Mr Peter Denny, of Dumbarton, has constructed two fine screw steamers. They are lying in the Clyde. Report of somewhat authentic kind says one of them is partly owned by the '*Chinese*,' and partly by individuals at Nassau, *New Providence*. It is publicly announced that she is soon to be employed on the line between Nassau and Charleston. Her name is the Virginia.

The term '*Chinese*' is in general use in the building yards of the Clyde and the Mersey to designate the Confederates, and the 'Emperor of China' has no other signification than to personify Jefferson Davis. The 'Chinese' have been striving very hard to purchase the sister vessel to the Virginia, through one of their agents at Liverpool; but Mr Denny, built and lost the Memphis, and he requires the 'Celestials' to pay cash down before he parts with his property.

The Messrs Scott of Greenock, are completing a very fine screw steamer, which is alleged to be intended for the trade between Charleston and Savannah.

Two weeks ago, a fine vessel of the same class as the Virginia was launched from Messrs Blackwood's yard at Port Glasgow, and common report says she is intended for the '*Chinese*.'

Upwards of fifty steam vessels, of various descriptions, in different stages of completeness, might be enumerated in this '*Chinese*' category. The 7th section of the 59th Geo. III, cap 69, prohibits, under a penalty of fine and imprisonment, with forfeiture of the property, the equipment, furnishing, fitting out or arming, of any vessel, to be employed in the service of any foreign prince, State, or potentate, with intent to commit hostilities against the subjects or citizens of any Prince or State, 'with whom His Majesty shall not then be at war.' Do not the facts herein submitted, my lord, warrant an immediate and a searching investigation into the nature of these transactions for the 'Chinese.'

The slaveholders' conspiracy is largely, nay mainly, indebted for its success up to the present time to the material and which has been extended to it by British capitalists. Two years before it broke out, their co operation had been secured through the instrumentality of the highest diplomatic agents of the United States in this country. Large advances were promised upon mortgages of enormous quantities of cotton, tobacco and rice, nor was the fact concealed by the Democratic party, that in the event of secession and war, almost any amount of pecuniary aid would be procured from this quarter. These powerful combinations in support of the slaveholders' conspiracy comprised the monetary, shipping and mercantile interests. As much as £10,000 and even £20,000 have been subscribed by individual members of these Associations, and in one instance a sum of £5,000,000 sterling can be directly traced as the immediate result of a single operation. Not many days ago, lists were exhibited by a Confederate agent, in which figured the names of Manchester men of high standing for large sums which they had just received; subscribed in aid of the Confederates.

Some idea may be formed of the large number of vessels engaged, and of the vast capital risked in this contraband trade, from the fact that the Federal cruisers have captured nearly 600, chiefly British, while attempting to run the blockade, and confiscated property to the amount of £8,000,000 sterling. So great, however, are the profits arising from this traffic, that it is daily increasing.

The New York Times well says: "The British Government must know that this is conduct which is in direct violation of English law, as well as of the nominal relations of friendship between Great Britain and the United States.—Our Government should instruct Mr Adams to demand the most explicit explanations on this subject, and to insist on the discontinuance of this flagrant violation of the neutrality professed by the British Government."

[We think the delivery of these vessels should be and will be stopped by that government.]

Sch. Two Brothers, of Calais, supposed to have been lost, has been heard from. She was blown off the coast.

Union Caucus.

The legal voters of the City of Bangor, who are in favor of sustaining the Government in its measures for a vigorous prosecution of the war for suppressing this unholy rebellion, are requested to meet at the City Hall on THURSDAY Evening next, at 7 1-2 o'clock, to nominate a candidate for Mayor.

Ward Caucuses

Will be held at the usual places in the several Wards, on FRIDAY Evening next, to nominate candidates for Ward Officers, Aldermen and Common Councilmen. Per order of City Committee

march 2, 1863 J. M. YMAN, Chairman.

To the Voters of Bangor—The True Position of the Secession Democracy.

Speaking of the nomination of Thomas H. Seymour for Governor of Connecticut, by the pro-slavery Democrats, the Tribune says:

"He did not wait for the Proclamation of Freedom nor any such pretext, but took ground against the war from the start. Long before the President recognized and treated Slavery as the culpable cause of the rebellion, Col. Seymour wrote and printed a letter unsparingly stigmatizing the war."

Seymour's position is exactly that of the secession-democratic party throughout the country, under its present leaders. Those who manage and control the party in this city, and ask the people to vote for their candidates at our municipal election, stand precisely on the ground occupied by this out-and-out friend of the rebels, Thomas H. Seymour. One of the toasts received with applause at their recent supper at the Franklin House, in this city, was as follows,—"Col. Thomas H. Seymour, of Connecticut—AN EXACT TYPE OF TRUE DEMOCRACY!" It is useless therefore for them to talk about the President's Emancipation Proclamation having turned Union democrats into opponents of the war. *They were disloyal and malignant opponents of the war from the very start.* They were original friends of the rebels; and always prayed, (if they ever do pray,) hoped, and acted for the success of the rebellion. They were and are ingrained pro-slavery men; and determined, from the first, to aid their "Southern brethren" in BREAKING DOWN THE GOVERNMENT if a Republican or anti-slavery administration should come into power.

These are the leaders, and thus the party, which the Union people of Bangor are asked to support at their coming election, upon the specious and lying pretext of "sustaining the Union and the Constitution as they were." Pretty fellows are these to talk about sustaining "the Constitution as it is," when they have excused, palliated, and even upheld, from the very beginning of the war, the most outrageous and vital assault which can be made upon that constitution, viz; *attacking the constitutional government by armed force!* Their friends, the rebels, have overturned and utterly destroyed that constitution in one-third of the States of the Union, and yet these Northern "democrats" denounce the government and declaim against its "outrages" in making war upon those Southern assassins of the nation; and while doing this, they hypocritically call upon the voters to join them in maintaining "The Union as it was, and the Constitution as it is!" These very same men, if they dare, will resist the government by force within six months.

Is there a voter in Bangor—an intelligent man who can read, or understand what others read, who will believe for one moment that there is a spark of true, unconditional loyalty in the men who are now leading on the democratic party towards open and violent opposition to the government,—and that too under pretext of sustaining the constitution! Will the gentleman who was nominated last evening for Mayor by the democratic party, stand as the candidate of such men? Will any man who loves his country at heart, vote for any one who *will* serve as their candidate?

ACTS PASSED BY CONGRESS.—Among the bills passed concurrently in Congress on Monday, were the Conscription bill—a bill amending the Internal Revenue Act—the bill (as reported by conference committee) increasing the President and other persons for suspending the writ of habeas corpus—a bill giving to soldiers discharged, in consequence of wounds or sickness, the cash bounty as if they had served two years—a bill providing for the removal of the Sioux Indians from Kansas—a bill providing that the Supreme Court shall hereafter consist of a Chief Justice and nine Associate Justices, one of whom shall hold Court in the new circuit of Oregon and California.

UNION RESOLUTIONS.—Among the resolutions of the Waldo County Union Meeting, on the Anniversary of Washington's Birthday, were the following:—

Resolved, That to those who complain of the arbitrary arrests of semi-traitors of the North, we would commend the language of Mr. Jefferson:—"A strict observance of the written law is doubtless one of the highest duties of a good citizen; *but not the highest;* THE LAW OF NECESSITY, OF SELF-PRESERVATION, OF SAVING OUR COUNTRY WHEN IN DANGER, IS ONE OF HIGHER OBLIGATION. To lose our country by a scrupulous adherence to written law, would be to lose the law itself, with life, liberty, property, and all those who are enjoying them with us—thus sacrificing everything to a end to the means."

Resolved, That under all the discouragements and misgivings of this war against an unholy rebellion, commenced and carried on for the sole purpose of extending and perpetuating slavery, we recognize the hand of our Heavenly Father, leading the nation out of years than Egyptian bondage, and opening before us a land of promise, into which the oppressor shall never enter.

And on here we abiding confidence in Him, who "has made of one blood all nations of men," that he will so direct this great conflict, as to insure the triumph of the great principles of human brotherhood, and make the return of peace as a year of Jubilee, "proclaiming liberty to all the inhabitants of the land."

These resolutions, among others, were, we believe, *unanimously* reported by a committee composed of men who were nearly all in the old Democratic party when the war commenced.—They were not drawn by "Black Republicans." Can there be a stronger indication of the essential loyalty of the great body of the people, and even of their *emancipation* sentiments than the fact that such men are quite up with the Republican party on these points?

A MANIFEST.—At the Copperhead Caucus last evening, it was thought necessary to sacrifice Reuben S. Prescott, Esq, by nominating him as a candidate for Mayor. He will have the honor of receiving the meanest support ever given to a candidate in Maine. A pleasant legacy for his children.

FOURTH OF MARCH LEVEE FOR THE SOLDIERS this evening, at Norombega Hall. This is the fourth and last of the series given this winter by the ladies of the Sanitary Commission. We trust it will be as generally patronized as the preceding ones have been. There will be dancing, oysters, ice creams, &c. Mr. Lunt will furnish the music.

☞ The Secession Democratic supper in this city on the evening of the 23d of February, was attended, according to their own report, by about 200 persons, "a large proportion from out of the city."

☞ The reason why there was no choice for Mayor in the Lewiston city election, was that the Republicans felt strong enough to run two candidates against the Democrats one—and consequently did not elect either.

WINTERPORT, March 3, 1863.

HARRIS:—Our annual election came off yesterday, and Job Lond and John L. Norton were re-elected for the fourth term, and James March, Esq, for the second term, as Selectmen. Each of these men received about one hundred and fifty (150) votes, while the copperhead candidates received on an average about twelve (12) votes.

Job Lond was chosen Town Agent, and R. A. Rich, Esq., Town Clerk, Treasurer and Collector; all good, true Union Republicans. Thus you will see that Winterport still maintains her reputation as a Republican town. SAM.

☞ Companies A and B of the 2d Battalion U S 17th regulars, comprising 150 men, left Portland for the Army of the Potomac, on Monday last.

☞ The statement that Mr John Jordan of Cape Elizabeth was found dead in the road, was not correct. He lived some time after discovered, and died in his own house.—*Argus.*

☞ They are catching noble trout—regular three pounders, "under the Falls" at Lewiston—that is, if the Journal of that place is a veracious sheet. All owing to the new city charter.

☞ The Portlanders are making a movement for a Merchants' Exchange

☞ John A. Balkam, Esq., who was for a long period of years Deputy Collector of Portland, died on Sunday morning last

☞ We regret to learn that Capt. L. O. Conan, editor and proprietor of the Biddeford Union, and recently of the 1st Maine Cavalry, died at his home on Sunday morning last, after a long illness which commenced while he was in active service. He was a zealous patriot, and a brave officer

☞ A lecture on the life and character of Hon. Reuel Williams was delivered before the Maine Historical Society, Friday evening last, in Meonian Hall, in this city, by Hon. John A. Poor. The reading occupied two hours before a large audience of the citizens of Augusta and members of the Legislature. It was a carefully prepared and ably written sketch of the life, career, and service of the distinguished man who was so long conspicuously identified with the history and progress of this city.—*Augusta Journal.*

☞ The Bath Times says that Fort Popham is progressing as rapidly as enterprises of such magnitude are expected to progress. There are now employed about sixty men, which number will be increased in a month or two. The fortifications will be 289 feet across the rear, 150 feet from the rear to the outer circle, and 354 feet circle, bastions and north and South fronts.—There are to be forty embrasures. The work is under the general supervision of Captain Casey, U S A.

A BENEVOLENT TRAMP. The Oxford Democrat says that at North Paris recently, Mr. Gilman Twitt was soliciting contributions for a poor widow, when he accepted a challenge to carry to her separately, every ten cent bill that anybody would give him. The game commenced at half past three, P. M., every person who visited the village store entering into the sport, and furnishing ten cents, with which Mr Twitt hied away to the widow's, and returned for another contribution. In this way it was engaged without stopping for refreshments, until eleven o'clock, P. M., when returning to the store he found the door locked, his friends having given up the contest. He then turned jaughing homeward, having been to the widow's ninety-nine times, and travelled nearly sixteen and a half miles. He undoubtedly slept well that night.

RHODE ISLAND MINUS A GOVERNOR. Owing to the resignation of Gov. Sprague and Lieut. Gov Arnold, Rhode Island is without a governor and that position is filled by the President of the Senate, Hon. Wm. C. Cozzens of Newport.

The price of subscription of the Portland Daily Press is $6,00 per year, or $7,00 if not paid in advance.

☞ In the summer of 1861, a young man in New York, who happened to have $10,000, took the advice of a veteran financier, and invested the whole in tar at $1 per barrel. He realized last fall, selling out at $40 per barrel, the nice little fortune of $400,000. Though he made this comfortable pile by speculation in pitch, it does not follow that everybody will be equally successful if they pitch into speculation

☞ An old lady in a country town not far from this city, a few days since, having occasion to liquidate a bill of $20,96, paid it with two American eagles and the balance in silver coin. The gold alone was then worth in this city at least $34,00. The *lady* was excusable perhaps, for not being posted in financial matters; we have nothing to say by way of apology for the *man*, fully posted, who would take such advantage of her ignorance.—*Press.*

☞ We notice that the bonds of the Androscoggin & Kennebec Railroad Company are now quoted at $95 to $100, which is an advance of about 25 per cent. within a few weeks. This company has never failed to pay its coupons on the day they became due—six per cent, payable semi-annually. There is no reason why these bonds, as well as those of the Atlantic & St. Lawrence, should not go far above par, for they are a safe investment. The A. & K. Company will get rid of a large amount of their stock bonds this year. This fact, in connection with the fortunate consolidation of the road with the Penobscot road, has infused new life into the corporation, both healthful and permanent.—*Portland Press.*

GEN. BUTLER ON JEFF. DAVIS' PROCLAMATION. A Washington correspondent of the Cincinnati Gazette tells this story:

General Butler has told friends here the course which he should have pursued with reference to the proclamation of Jeff Davis against him had it reached New Orleans while he was still in command. He would have sent a rebel General and several other officers then in his hands to Ship Island, with orders that upon receipt of authentic information by the officer in command there, that a hair of Butler's head or any of his officers had been touched, these rebel prisoners should all be hung at once. "And," adds Butler, "Jeff Davis knows, we will enough to believe that what I promised I should perform. He knows that a Massachusetts man who dared to vote sixty-four times for him at the Charleston Convention would dare do anything."

Joint Resolution in Relation to certain Railroads in the State of Missouri.

Whereas by the fourth section of an act of Congress entitled "An act granting the right of way to the State of Missouri and a portion of the public lands to aid in the construction of certain railroads in said State," approved June 10th, eighteen hundred and fifty-two, it is provided as follows: "That the said lands hereby granted to the said State shall be granted to the day and to the legislature thereof, for the purposes aforesaid, no other, and the said railroads shall be and remain public highways for the use of the Government of the United States, free from all tolls or other charge upon the transportation of any property or troops of the United States, and whereas the said grant of lands has been applied in the construction of the railroad on the eastern portion of the said State, and the St. Joseph railroad, constructed also on said grant, to the Missouri River, the St. Joseph and Hannibal railroad company and the Pacific railroad of the State of Missouri, and the said last-mentioned road is finished and running from Saint Louis to near the Missouri, and whereas the said legislature of said State has not yet provided for the proper application of said grant, and it is doubtful how far the said lands can be applied to the purposes of said railroads, and the parties interested in said railroads have been greatly impeded by the uncertainty of their rights, and the general desire of said companies, and the general desire of the people of said State, and in view of the pressing public necessities, the United States, in waiving the right to have the property and troops transported free of tolls until repaid, or other compensation, as contemplated by the reservation aforesaid, have resolved to let lands: Therefore

Be it resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of War is hereby authorized to make such an adjustment with the Hannibal and St. Joseph Railroad Company and the Pacific Railroad Company for the transportation of the property and troops of the United States over said roads during the existence of this rebellion, as in view of the peculiar circumstances of the case, he may deem just and reasonable and equitable for the same: Provided, however, That the sums paid to said companies shall be no more than the cost of transporting such property and troops and not exceeding the prices fixed by the War Department on the twentieth day of July, eighteen hundred and sixty-one, for transportation by railroads, which adjustment and compensation shall preclude any further claim on behalf of such companies against the Government for compensation or damages previously accrued, or for the military occupation of the said roads by the United States Government up to the time of the passage of this act: Provided, further, That the Secretary of War may in his discretion, withhold from the said companies portions of the moneys which may be due to the said railroad companies, as indemnity to the Government against any failure of said company to promptly transport such troops and supplies, but shall not be construed as to prevent the Secretary of War from taking possession of said railroads at their approaches, and applying the same to the exclusive use of the Government whenever, in his judgment, the public interests may require it, without, in such case, compensation to said companies.

The peculiar taint or poison of scrofula [illegible] in the constitution of nearly one half of the human family, [illegible] other diseases [illegible] that finally becomes so [illegible] the vital forces in their vigorous action and leaves the system to fall into disorder and decay. This scrofulous contamination has generally caused by mercurial diseases [illegible] living, it rendered digestion from unhealthy [illegible] impure air, filth and filthy habits and depressing vices, and, above all [illegible] the secretory infection. Whatever be its origin, it is hereditary in the constitution [illegible] transmitting from parents to children unto the third and fourth generation, indeed it seems to be the rod of Him who says, I will visit the iniquities of the fathers upon the children. The disease it originates take various forms according to the organs it attacks. In the lungs Scrofula produces tubercles and finally Consumption, in the glands swellings which suppurate and become ulcerous sores, in the stomach and bowels dyspepsia and liver complaints, on the skin eruptions and cutaneous affections [illegible] from impure blood, require the [illegible] purification and invigoration of the blood. Purify the blood and the dangerous distemper is leave you. With a pure, fresh, or uncorrupted blood you cannot have health with the life of the flesh. Healthy you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual and [illegible] that medical science has discovered for the afflicting distempers and for the cure of the disorders it contains. That it is far superior to any other remedy yet devised is proven by all who have given it a fair trial. Its cures continue virtues to the extraordinary [illegible] effect upon those of so long standing and painful character as have yielded to no other medicine. Its [illegible] proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole [illegible] of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Ayer's American Almanac, which is furnished to the druggists gratuitous distribution, wherein may be read the directions for its use, and some of the remarkable cures which it has made. Its [illegible] other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some who can speak to him of its benefits from personal experience. Scrofula depresses the vital forces and thus leaves its victims far more subject to disease and its fatal results than healthy constitutions. Hence it [illegible] shortens and does greatly shorten, the average duration of human life. The importance of these considerations has led to spend years in perfecting a remedy of the adequate to its cure. This we now offer to the public under the name of Ayer's Sarsaparilla, although it is composed of other ingredients some of which exceed the best Sarsaparilla in alterative power. By its use you may protect yourself from the sufferings and danger of these disorders. Purge the foul corruptions that fret and fester in blood purge out the cause of disease, and the consequences will follow. By its prompt use thousands annually stimulates the vital [illegible] and thus expels the distempers which lurk within the system or burst out in some part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that have cost much and did nothing, but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

TO THE OLD HOMESTEAD TONIC.

LET our possessions be what they may—marble palaces, broad lands, magnificent plate, or caskets of precious stones—they all sink in the balance as against Heaven's great boon HEALTH and they can be enjoyed only as it is. The language of nature is that all men would enjoy the pleasures of flowers and landscape, the joys of companionship, the richness of fruit, the honors of station and fame, but most prize their health. And yet how [illegible] now carelessly preserved. The stomach, the receptacle of all nourishment, and the source from which all parts of the system receive sustenance. When foul, impure, or sodden, the stomach acts sympathetically upon all other organs and disease more or less painful follows. The laws of health are [illegible] with impunity. Nature never, never, never, [illegible] *the moment*. How many, and good men, [illegible] feeling languid, [illegible] weak and [illegible] DYSPEPSIA, which assumes a form so appalling [illegible] wards a *miserable life and premature death*. There can be no mistake [illegible] lead into food or poisoned drinks [illegible] but medicine can assist nature [illegible] ply exhausted fluids and to arrest the effects of disease when the half is already abandoned.

The Medicinal Faculty have long recognized the [illegible] for generations in cases of appetite, overcoming stomachic derangements. Certain ingredients were well established as possessing beneficial qualities among these were Calisaya Bark and St. Croix Rum. But still [illegible] were and [illegible] the tropical island of Cuba [illegible] its medicinal properties and [illegible] the exception for the final accomplishment [illegible] improvement. Its compound part [illegible] corporated in the vegetable kingdom of that island produced the effect without a proper knowledge of the cause. The article was first made and used as a private medicine. Its effects were so [illegible] it has now been produced under the name of Drake's Plantation Bitters or Old Homestead Tonic. They act with the power of a medicine and are taken by children, young with the plea [illegible] enough. The sale of these bitters was at first confined to our extreme South, but they are now becoming well known throughout the world and are recommended with the most unbounded confidence for all complaints [illegible] disorganized or diseased stomach such as Dyspepsia, Liver Complaints, nervous affections, Loss of Appetite, Intermittent Fever, Diarrhea, Sour Stomach, Headache, Nervous Affections, &c.

An morning appetite and [illegible] they are held in high esteem and should be found upon the side board of every family. They are also much relied upon in the treatment of Scrofula, Rheumatism and Dropsy.

S—T—1860—X

Let you may be your own judge, the efficacy of these celebrated Bitters we submit a partial formula of the articles of which they are composed. St. Croix Rum. The genuine properties of pure St. Croix Rum are well known and it has long been recommended as physical. It is manufactured from the Sugar Cane Plant and that we use is selected with great care from the estates of a few planters in the interior of the island. Calisaya, or King's Bark, was unknown to civilization until the middle of the seventeenth century. The natives of Peru are generally supposed to have been long previously acquainted with its most wonderful medicinal qualities. Humboldt makes favorable mention of the febrifuge qualities of this article as an antidote to Fever and Ague, Intermittent and Malarious Fevers in his extensive South American travels.

CASCARILLA BARK is another important ingredient. It was known in Germany as early as 1790, and much used as a substitute for Peruvian Syrup. It is employed as a gentle stimulant and tonic in Dyspepsia, Chronic Diarrhoea, Chronic Dysentery, and in cases of the stomach and bowels. DANDELION is used for inflammation of the loins and spleen, it eases of urinary secretions and drops, and affects the deposition of obstructions of the abdominal viscera, and derangement of the digestive organs generally. CHAMOMILE FLOWERS used for enfeebled digestion and want of appetite. WINTER GREEN is a medicinal plant of very great efficacy and is especially valuable in Scrofula, Rheumatism and Neuralgic affections. LAVENDER FLOWERS an aromatic stimulant and tonic, highly invigorating in nervous debility, generous to the palate and stomach. ANISE, an aromatic carminative, creating fresh appetite and mild. Much used in nursing. S—T—1860—X. Another ingredient of remarkable and wonderful virtues used in the preparation of these Bitters—is a native of Brazil and as yet unknown to the commerce of the world. A Spanish writer says [illegible] administered with St. Croix rum never fails to relieve Nervous tremor, Wakefulness, disturbed sleep [illegible] and that it is used with great effect by the Brazilian Spanish and Peruvian ladies to heighten their color and beauty. It imparts cheerfulness to the disposition and brilliancy to the complexion. We will hold its name for a time to public for the present.

To the above are added Clove buds, Orange, Caraway, Coriander and Snake root. The whole is combined by a perfect chemical process and under the immediate supervision of a skillful and scientific Pharmaceutist.

Drake's Plantation Bitters or Old Homestead Tonic are put up in Patent Bottles representing a Swiss cottage and are an ornament to the side board.

Sea Sickness. Travellers by railroad or upon the inland rivers, where the great change of water is such a prolific cause of incipient disease like Bilious Intermittent, Ague and Chill Fevers, may feel a certain reliance if they provide themselves with these Bitters. The sudden water of the Western rivers filled with decayed vegetable and animal matter is quite sure to produce disease unless guarded by an antidote such as is found in the Plantation Bitters.
